A WORD FROM OUR PASTOR

Digital and Analog

Acts 2:17-18 "In the last days, God says, I will pour out my Spirit on all people. Your sons and daughters will prophesy, your young men will see visions, your old men will dream dreams. Even on my servants, both men and women, I will pour out my Spirit in those days, and they will prophesy.

I was born in an Analog World. My adulthood has been filled with more and more moments of my body born analog working in a world with digital tools.. In my childhood I recall the picture on the television suddenly going wonky (technical term), and dad used a pencil eraser to move a tube connection slightly, and the picture would return to normal. In those days we had a black and white tv as a backup. I remember years later how upset he was when he felt "forced" to purchase an additional box for his antenna feed, as the signal was now going to be digital. It was similar to my anger at being forced by a professor to purchase my first computer in order to turn in papers that were printed instead of written or typed. That was when I returned to college in 1998, at my first pastoral appointment. Only 23 years ago, and now here I am working out the kinks of streaming our services to 2 different platforms as an alternative to "only" using Facebook Live. I think the "me" of those days would shake his head at what is possible today, or even what I've learned so far.

One of our core pieces of equipment allows Hoffman to be live online with camera changes, powerpoint, and audio coming from the soundboard, in synch with our lips, mind you (a challenge you likely didn't know had to be solved). It was a special purchase the Church Board approved, and a couple folks donated towards and prevented it from hitting funds too hard. This one piece of equipment takes the Analog audio and video, as well as the digital computer signals, and combines them together into a digital signal that now goes out into the "world," and onto your devices and televisions. One device, Analog and Digital. Without it, I would probably be back on a

cellphone again, haha!

In this season that has felt like we are being pushed apart, analog and digital has had to work together for us to offer worship and to offer Christ, attempting to pull and hold us together. We had to have both Analog and Digital working together. It never was either/or for us, but both/and. I've said in other contexts that I am a bit of a both/and kind of guy, as I tend to or try to see the gifts of both rather than the exclusion. There are probably a few in our congregation who feel like they are stuck in Analog, with no usefulness in the digital world. I have a crew of vintage cameras in the sanctuary with a different story to tell. The Good News is for all persons, and all persons are gifted by the Holy Spirit in such a way to further its expansion and growth.

The verses at the beginning of this note are of course connected to the miracle of Pentecost, a miracle that many in Christianity believe is still impacting the work of the church.

Notice the prophecy quoted isn't either/or, but is both/and. Young men's visions and old men's dreams are all going to be utilized to accomplish the kingdom work of God.

I have smiled a couple times thinking about Analog and Digital working together, especially while also trying to figure out whether I am young or old...would I have visions or dream dreams? I think in the work of the kingdom of God, the answer is "yes." We get to tell the old old story in ALL the ways available to us. We still can tell it through personal contact, phone calls and notes, but we also get to learn a few ways to share the good news using digital tools. Worship in person should not replace watching it on a screen, as the "analog" relationships of smiles, conversations and hugs will be needed in our sanctuary again, someday. There's no real app for that. We need both/and as this new year continues, for the stories of Christ in our lives still need told. While proudly analog & digital, I am,

In His service and yours,

Pastor's Report

November Average attendance for 9 am: 17 in person and 46 online; 11:15 am: 18 in person and 26 online. JoAnn has updated our process for posting the newsletter on our website at HoffmanUMC.org; previously we were scanning the paper pages for upload. The Towers is now a fully digital single document and the original is directly uploaded to the copier. November was the first issue to be fully digital and in color on the website. The last several years of the newsletter are available on the website. Becky took advent crafts and advent study to 30 families. On Christmas Eve services there will be a children's message in both services. Joseph continues to be outreach to the Milton Union youth, which is even more important now that students have transitioned to online school. The December 1 makeup day for Directory pictures was a success. Efforts for keeping the essence and the traditions of Christmas Eve services while keeping everyone safe are underway. Services may be viewed in the activity center. Solo specials have been selected and will be recorded for Christmas Eve service.

Robbie is scheduled to participate in the Board of Ordained Ministry Interviews Jan 31-Feb2. Possible pulpit fills are being checked on. Robbie is looking ahead to Lent which is early in February 2021.

Finance

The finance report for November was reviewed and accepted. The yearend projection summary is good and overall even for income to expenses.

2021 Officer Note:

Due to the impact of the pandemic, all board officer terms were extended for one year, with the exception that Dick Martens will end his term as Chair on schedule and will step down to Board Vice Chair, with Katie Poling will begin her term as Church Board Chair.

While gathering during this COVID season, we implore that all who come be healthy and use best practices of distance and masks. We do have room for more at each service while still keeping social distance standards. The chart below records both those in physical and confirmed online attendance, but we are aware and thankful for those who also watch the services later. -rs

A Birthday Surprise

On February 25, 2021, Betty Castle will be celebrating her 100th birthday. She has been a long time “customer” of Grandma’s Kitchen meals since Tim McCuiston used to deliver her meals. A couple of years ago, she fell and decided that it would be better if she went to a facility rather than live at home in her trailer. She has been at Koester since probably 2019. The Visitation Team has been visiting her since 2009. Of course now, we have been unable to visit her because of the virus. She has been unable to see anyone in her family – her children, grandchildren, great grandchildren or any of her many, many friends. So, for her 100th birthday, we are inviting all her know her (or even if you don’t) to send her a card. She has a great sense of humor and remains sharp as a tack, including a better memory than some half her age. She is a delightful person and would thoroughly enjoy hearing from you. Even if you think she doesn’t know you, and you wish to send her a card, tell her something about yourself, your family, your friends because she has this uncanny ability to make connections with people that you know in common. Don’t be surprised if she doesn’t call you (include your phone number, just in case) or receive a short note from you about how much she enjoyed your card. The team loves to visit and you will too.

Dove

By Chris Long

January 2021

While on vacation in Key Largo I was sitting on a balcony overlooking a dock. As I was looking for a manatee, a dove flew closely by me. For some reason, this reminded me of the dove that flew onto the ark bringing good news to Noah that the flood was subsiding and all would be much better in the near future. Think about it. God used a bird as his message carrier.

Genesis 8:8-9 Then (Noah) sent out a dove to see if the water had receded from the surface of the ground. But the dove could find no place to set its feet because there was water all over the surface of the earth; so it returned to Noah in the ark. He reached out his hand and took the dove and brought it back to himself in the ark.

I then began thinking about the current events in the United States and the world as a whole. What a dismal state of affairs in which we find ourselves. Will God send us a message that our future will be much better? Who or what will He use as His messenger? Certainly the Bible contains many applicable messages, and we should be more aware of what God has to say about calamity.

My pastor, Robbie Scott, states: "I admit I see the waters of hatred and division as threatening to flood our lives in this great country, and the dove of peace is still waiting for the waters to recede."

He also shared these words from Paul: Romans 12:17-19 *Do not repay anyone evil for evil. Be careful to do what is right in the eyes of everybody. If it is possible, as far as it depends on you, live at peace with everyone. Do not take revenge, my friends, but leave room for God's wrath, for it is written, "It is mine to avenge, I will repay," says the Lord.*

God probably won't send a dove to be His messenger, but then perhaps He will (perhaps He already has). Should we as Christians serve as ones to carry the message to the masses? I believe that each of us should be his doves in 2021 (and beyond). Let's take to our hearts this message: **Let there be peace on the earth, and let it begin with me.**
